Professional Summary

Full-Stack Developer and Software Engineering undergraduate at SLIIT with hands-on experience building MERN stack web applications and responsive frontend interfaces. Skilled in React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, with additional experience in Next.js and PostgreSQL. Familiar with Agile development practices, RESTful API design, and version control using Git. Passionate about building clean, user-centric solutions and actively seeking a Frontend or Full-Stack Developer internship in Colombo to contribute and grow in a professional environment.

Education

BSc (Hons) in Information Technology – Specializing in information Technology Sri Lanka Institute of Information Technology (SLIIT)	Feb 2023 – present
G.C.E Advanced Level (Tamil Medium), in St’Anthony’s College, Wattala Obtained 2C, 1S	Jan 2020 - 2022/2023
G.C.E Ordinary Level (Tamil Medium), in St’Anthony’s College, Wattala Obtained 3A, 6C	Jan 2019 – Dec 2019

Experience

Data Entry Operator , Wisdom Books (Pvt) Ltd	Nov 2023 – Sep 2024
- Performed data entry and record management tasks. - Maintained accuracy and consistency of organizational data. - Managed documentation and digital records.	
Co-Founder & Secretary Digital Spark Solution (Pvt) Ltd	Oct 2024 – Dec 2025
- Developed and deployed a client-facing website as part of the company's service offerings using frontend technologies. - Assisted in planning and executing digital marketing initiatives for client projects. - Coordinated administrative and operational activities as Co-Founder and Secretary.	

Certifications

- MongoDB Node.js Developer Path at MongoDB
- Deploying and Evaluating GenAI Apps Learning Badge Path at MongoDB
- Introduction to Microservices & FractalX Framework — FractalX Dev Conference 2026

Projects

Viremo – Movie & Book Tracking Platform – [GitHub Link](#) | [Live Demo](#)
Next.js, TypeScript, PostgreSQL, Supabase, Prisma, NextAuth, Gemini AI · 2026

- Built a full-stack movie and book tracking platform using Next.js and TypeScript, featuring user authentication, personalized profiles, ratings, and diary management.
- Designed and managed a PostgreSQL database using Prisma ORM, enabling efficient and scalable content storage and retrieval.
- Integrated Gemini AI to deliver personalized content recommendations, enhancing user engagement through intelligent suggestions.
- Deployed the application on Vercel with a focus on performance, maintainability, and modern full-stack development practices.

GoSync – Online Bus Ticket Booking System | [GitHub Link](#)

MongoDB, Express.js, React.js, Node.js (MERN Stack) · University Group Project

- Collaborated in a team to develop a full-stack online bus ticket booking platform serving passengers and transport operators using the MERN stack.
- Owned the Bus Management module end-to-end, implementing bus registration, operator management, maintenance tracking, and bus assignment features.
- Designed and built RESTful APIs connected to MongoDB to handle transportation data across multiple system workflows.
- Contributed to analytics dashboard development, testing, debugging, and team-based version control using Git and GitHub.

UniWave – Student Collaboration & Campus Engagement Platform | [GitHub](#)

MongoDB, Express.js, React.js, Node.js, JWT, Socket.io, n8n · University Group Project

- Collaborated in a team to develop a centralized platform that enhances student engagement, communication, and academic productivity within the university ecosystem.
- Developed the Events & Engagement module, including event management, RSVP functionality, personalized notifications, and calendar-based reminders.
- Implemented RESTful APIs and integrated database operations to manage event data and user participation records.
- Worked with Git and GitHub for version control while contributing to testing, debugging, and system integration activities.

Expense Tracker Mobile Application

Kotlin, XML, Room Database, RecyclerView, Figma · Individual Academic Project.

- Developed an Android application to help users record, categorize, and monitor daily expenses.
- Implemented Room Database for secure local data storage and efficient transaction management.
- Designed responsive mobile interfaces using XML layouts and RecyclerView components to enhance user experience.
- Created UI prototypes in Figma and applied Android development best practices throughout the project lifecycle.

Skills

- Programming: JavaScript, TypeScript, Java, Kotlin, SQL
- Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express.js, Spring Boot, JSP, REST APIs
- Databases: MongoDB, MySQL, PostgreSQL, Supabase, Room Database
- Tools: Git, GitHub, Postman, Prisma ORM, Vercel, Figma
- Languages: English (manageable), Tamil (native), Sinhala (manageable)

Volunteer Experience

Mozilla Campus Club of SLIIT - Active Member

Aug 2023 – Present
